OBJECTIVE

Dedicated accounting professional with specialized expertise in taxation, auditing, and financial management. Proven ability to analyze financial data, ensure regulatory compliance, and deliver accurate financial reporting. Equipped with practical experience in Xero accounting software and strong analytical skills to support organizational financial decision-making and strategic planning

EDUCATION

BCom in Accounting

University of Johannesburg

2023 – 2025 (final year)

- Specialization: Accounting | Taxation | Finance | Auditing

SKILLS

Technical Skills:

- Programming Language: Python
- Accounting software: Xero (bookkeeping, financial reporting, reconciliations)
- Advanced Excel: Data analysis (pivot tables, complex formulas, dashboards)
- PowerPoint: presenting data visually and creating professional slides
- Web development: HTML5, CSS3

Soft skills:

- Problem-solving: Analyzing financial data to identify trends, variances, and potential issues, and developing solutions.
- Teamwork: worked effectively in a group of students during our assignments, using agile methodologies to ensure that the project milestones were met.
- Communication: Regularly presented progress updates and technical challenges to tutors and lecturers, fostering clear and productive discussions.
- Adaptability: Adjusting to new software, processes, and challenges in a fast-paced academic environment.
- Ethical Judgment: Applying ethical standards and principles when handling financial information and decision-making.

CERTIFICATIONS

Johannesburg Business School
Programming & Grit – November 2024
GBS-GL-870

- Completed an intensive program focused on program-solving, algorithms, and introductory programming with Python
